Tautochronous track, analog and digital multimeter, 2 photoelectric sensors

EQ331AJM

Function

Intended for study, physics lab, math lab, physics experiments, math experiments on: Analytical Geometry. Is the shortest path always the fastest? The brachistochrone characteristic of the inverted cycloid. Does travel time always depend on the distance between two points? The tautochronous characteristic of the inverted cycloid. How to obtain a cycloid curve using free software? Printing the cycloid, etc.
Note: External memory device for USB pen drive connection is not included.

Knowledge areas

Physics - Mathematics

Level

Graduation - Technical education
