

## Set of affine and quadratic functions, with digital multi-stopwatch EQ001Q

### Function

Intended for experimental study, math laboratory and performing math experiments on: Functions. What are the characteristics of the graph of the affine function? Positive angular coefficient. What are the characteristics of the graph of the affine function? Negative angular coefficient. What are the characteristics of the quadratic function, etc.

### Knowledge areas

Mathematics

### Level

Graduation - Technical education - High school
